## INFECTION CONTROL QUIZ (GENERAL EMPLOYEES)

Please answer all questions by circling true or false. Once complete, return this to the Director of Human Resources within one week of receipt.

If your answers are not all correct, you will be asked to re-review the material.

---

1 Diseases like HIV and HBV can be contracted through infected human blood, semen, vaginal secretions, amniotic fluid, saliva and any body fluid that is visibly contaminated with blood.

TRUE                      FALSE

2 You can obtain a copy of UCP's Exposure Control Plan from the Safety Coordinator's office or in the policy manual at each location.

TRUE                      FALSE

3 UCP does not subscribe to the theory of universal precautions.

TRUE                      FALSE

4 Handwashing is crucial to the prevention of the spread of infection.

TRUE                      FALSE

5 Eating, drinking, smoking, applying makeup and handling contact lenses are all prohibited activities in an area where there is a high potential of infection exposure.

TRUE                      FALSE
