E-mail: jporting@kdhe.state.KS.us

Family Voices continues to "get the word out" to families of children with special health care needs in Kansas. Approximately 7,000 families receive newsletters with Family Voices information. Family Voices Coordinators participate in several groups within the state, including Title V/CSHCN, DD Council, Part C agency, CHIP board and parent and child advocacy organizations. Children with special health care needs are carved out of managed care plans in Kansas. Two of the most pressing problems families in Kansas face are finding adequate coverage for specialty care, and obtaining health related services at school. As a result, children and families must travel a good distance for health care, especially specialty care.
